EAGLE WORLDWIDE FLEET MANAGEMENT

A black helicopter is shown in flight against a blue sky with light clouds. The helicopter has several markings: 'HAWC 1' in yellow on the side of the cabin, 'C-FIV0' in yellow on the front fuselage, and 'CALGARY POLICE' in yellow on the tail boom. There is also a small eagle logo on the side of the cabin. The helicopter's main rotor blades are blurred, indicating motion.

Eagle Copters was founded in 1975 in Calgary, Alberta, Canada with a lease fleet of a single Alouette II. Today, Eagle operates on three continents through an international network of subsidiaries, affiliates, and joint-venture partnerships.

Eagle specializes in helicopter fleet management with industry leading capabilities in sales, leasing, completions, product development, engineering, and an MRO provider to major OEM platforms. Eagle is positioned to be your frontline resource for worldwide fleet management with the expertise to serve and support across every aspect of the industry.
