FULL PAINT CAPABILITIES

EAGLE
WORLDWIDE FLEET MANAGEMENT

FLY. LET US DO THE REST

**EAGLE IS AMO CERTIFIED
FOR AIRCRAFT PAINTING IN
OUR FULL-SERVICE PAINT
FACILITY.**

Our full-service paint facility can handle any size paint job, from minor touch-ups to complex paint schemes using advanced colour-matching technology.

With three booths ranging from 140 square feet to 950 square feet, Eagle is well equipped to accommodate full aircrafts such as the AW139 and Sikorsky S76.

Eagle is committed to environmentally friendly refinishing technologies including advanced plastic media blasting in a specialized bay, UniRam solvent recycler to reduce paint waste, eco-friendly paint stripper, and a brand new Global Finishing Solutions booth with the United States Environmental Protection Agency Certification.

BENEFITS:

- 1. Dedicated & professional Red Seal licensed team*
- 2. Ability to accommodate most mil spec primers & paints*
- 3. UREA (TYPE II) PLASTIC ABRASIVE GRIT
Plastic grain stripping abrasive used in sandblasting*
- 4. Professional tools, equipment, and facility*
