SDAE. OF. (O) N°08/2/3/ 3905 /

SBJ.: Validation of STC N° SH07-28  
"Helicopter Bell 212 Single Engine  
Conversion".

SANTIAGO DE CHILE, 28 JUL 2009

FROM : ASSISTANT DIRECTOR FOR AIRWORTHINESS  
DGAC-CHILE

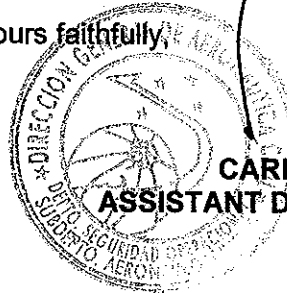

TO : EAGLE COPTERS SOUTH AMERICA S.A.  
Mr. MARTIN BUSQUETS

I.- In regard to the approval of the STC N° SH07-28 by the DGAC-Chile, which consists in a conversion of the helicopter Bell, model 212, to a single engine helicopter, and that you formally have requested by means of letter dated on March 10, 2009, it is a pleasure for us to inform you that such STC has been validated (i.e. approved).

This approval is based on a technical review of the substantiating and descriptive data that was submitted by you, upon request of this DGAC, to show compliance with FAR Part 29 requirements.

II.- Therefore, an Export Certificate of Airworthiness issued by Transport Canada Civil Aviation, for an helicopter Bell, model 212, modified according to this STC N° SH07-28, may be accepted by this DGAC. Just the STC should be stated in the Certificate.

Yours faithfully,

  
CARLOS ROJAS ORMAZÁBAL  
ASSISTANT DIRECTOR FOR AIRWORTHINESS  
DGAC-CHILE
